#### **Vision and Mission: - “Reach to Unreached”.**

The Department of Lifelong Learning and Extension strives to imbibe human skills among the students by engrossing them in activities beneficial for community upliftment. We try to work for the under privileged sections of the society and strive to transform the University system into an active instrument for social change through the institutionalization of extension as the third dimension. During this adverse Pandemic Time, we tried our best to be connected with our students online. This year i.e., 2020-21 total 97 students have enrolled themselves for DLLE unit of our college. Two students were appointed as Student Managers who bridged the gap between Extensions Students & Extension Work Teacher. This year due to the pandemic ease was given to students to complete their activity projects in an easy online mode. Our students have worked on Status of women project by doing online survey, questionnaire, interview. They have written the report on Status of women by analysing the data.

#### **Objectives for the year:**

- To stay connected with the students during the time of pandemic
- To design activities that would help students perform extension activities with ease.
- To create awareness to fight the tough times and reduce the anxiety levels among the students.
